

# A “SnapChat” for Parents

*Parenting Children & Adolescents in a Digital Era*

February 27, 2019 | 7:00-8:30pm

Attea Middle School

Mark your calendar for February 27, 2019, and plan to attend A “SnapChat” for Parents: Parenting Children & Adolescents in the Digital Era. You'll take home a better understanding of your children’s digital experience, as well as tips to help you help your children successfully navigate the digital world in which they live.

**District 34 administrators and teachers will discuss:**

- How devices and technology are used as positive tools for teaching and learning
- What online resources students access while at school, and safety and security measures that monitor student use
- What students learn at school about digital citizenship

**Renee Dominguez, PhD, and Robin Lake, MA, LCSW, from Family Service Center (FSC) will discuss:**

- The risks and benefits of digital communication and social media use, including its impact of on social and emotional development and functioning
- Practical considerations prior to introducing a smartphone
- Supporting your child’s digital development through mentoring
- Resources for parenting in the digital era

**Officer Joel Detloff from the Glenview Police Department will share:**

The considerations for youth online behavior, how the GPD addresses child online safety, and how they can serve as a resource for parents.
